DETAILED ACTION

Claim Rejections - 35 USC § 112

1. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

2. Claims 1 and 6-22 are also rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. The step of “verifying in one or more data base that recipient’s name is listed with recipient’s desired delivery address” was added to the applicants’ claim 1 by amendment filed August 13, 2001, paper No. 5, page 19. In that amendment the applicants did not point out where written descriptive support for that step appears in the original disclosure. The applicants’ original disclosure includes a statement that “[v]irtual post office box data center 75 contains a virtual post office name/address relationship data base 68 (Fig. 4)” (page 7, lines 8-9). The discussion following that statement, however, merely discloses correlating the virtual post office box number with the address. That discussion, therefore, indicates that “relational” in “name/address relational data base 68” refers to the relation between the virtual office box number and the name/address rather than the relationship between the name and the address. Thus, there is no discussion of verifying in one or more database that the recipient’s name is listed with the recipient’s desired delivery address as is now claimed.

3. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

4. Claims 16-20 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. The phrase "may be" renders the claim indefinite because it is unclear whether the limitations following the phrase are part of the claimed invention.
